Apply Now

Front End Web Developer, Kingston Upon Thames, South West London.

Syrox Emedia is seeking a technically aware and enthusiastic Front End Web Developer to join our team in our Kingston upon Thames studio. The successful web applicant will receive a salary of £25,000-£35,000 per annum depending on experience.

Established for over 10 years Syrox Emedia is an app and web development solution provider based in Kingston upon Thames who are dedicated to providing high quality online and mobile applications. Current clients include FIFA, Getty Images, Dunhill, Laureus, Associated Press and UEFA.

As our Front End Web Developer you will be passionate about front end development, appreciate great user experience and design, and proactively experiment with upcoming front end technologies.

The successful web applicant will receive a salary of £25,000-£35,000 per annum depending on experience plus benefits including:

- 30days holiday per annum,

- Pension,

- Yearly bonuses,

- A casual and friendly work place with snooker and table tennis tables.

To become our Front End Web Developer you must have the following skills, experience and knowledge:

- This is primarily a position for a Front End Web Developer with at least 1 to 3 years commercial experience

- Your portfolio should demonstrate you have worked on web projects before, including any links to web sites you have worked on clearly stating your contribution to the site.

- You must be a Graduate or equivalent, be based in London or the surrounding area and have a UK work permit.

- Solid XHTML, CSS, LESS, SASS, HTML, Ajax, Javascript, jQuery etc

- Understanding of responsive CSS and design

- Good working knowledge of solving cross-browser issues

- Understanding of Web Usability, Accessibility Standards and User Interaction

- Good working knowledge of Adobe Photoshop

- A strong understanding of the possibilities and potential of online content

- Good communication skills with the ability to accurately interpret briefs and respond in timely turnarounds

Though this is primarily a development role any additional knowledge of the following will also be an advantage:

- Understanding of database driven web development including SQL Server, ASP.NET (VB or C#) as well as using tools such as Visual Studio and Dreamweaver

- Understanding of eCommerce, SEO and online marketing techniques and strategies

- Good team player/worker

- Enthusiasm and ability to get the job done to high standards

If you would like to join our team as a Front End Web Developer, then please submit your CV and a list of URLs demonstrating projects you have worked on including a description of your involvement on a supporting Cover Letter.

Strictly no agencies, please. We do not adhere to agency t&c's if CV's are speculatively submitted.
